

# BIGGER & BOLDER

Watercolor Techniques  
with Atelier Interactive  
Professional Artists' Acrylics

This workshop will introduce participants to a new and exciting way of painting with Interactive Professional Artists' Acrylics using watercolor techniques.

Bigger and Bolder painting is an Impressionistic style of painting that incorporates very wet paper surfaces and the brilliant characteristics of Interactive's line of artist acrylics and mediums.

Materials and their use will be explained as well as simple compositional concepts that are easy to understand and execute, to produce beautifully vibrant paintings much like a watercolor....only using acrylics. Participants will see a full demonstration painting followed by one-on-one help, time permitting.

This style of painting is very easy to grasp and artists are sure to leave with a new and exciting way of using Interactive Professional Artists' Acrylics.

Students will need to bring coldpress watercolor paper, a waterproof board (gatorboard, coroplast, or a varnished piece of plywood), 4 bulldog clips, brushes and associated painting supplies. Chroma, Inc. will provide all the paint and mediums necessary.

The class is approximately 3 hours in length.

Cost of class: **FREE!**
