

CHROMA'S JO SONJA®

FACT SHEET

IRIDESCENT MARBLING

Create this simple, effective look by sponging all of the iridescent colours over dark backgrounds.

YOU WILL NEED:

Your choice of JO SONJA'S COLOUR - preferably a dark shade of our NEW JO SONJA'S BLACK GESSO.

Your selection of JO SONJA'S IRIDESCENT - BLUE, GREEN, VIOLET, ORANGE, RED.

Sea Sponge.

TIP: A sea sponge will give you better pattern variations.

Iridescent colours show up better over DARK backgrounds.

A dramatic effect can be achieved by using the NEW JO SONJA BLACK GESSO as a basecoat and then sponging lightly over with one or all of the iridescent colours.

The best effects are achieved when the iridescent colours are used "lightly". Heavy application will result in milky-hazy colour.

A soft Mother of Pearl effect can be achieved by using our NEW JO SONJA'S BACKGROUND Colour "SOFT WHITE" or JO SONJA'S SILVER then sponging lightly with some or all of the JO SONJA IRIDESCENT colours.

TIP: On a floral piece, try adding a few comma strokes here and there over the flowers or leaves.

E.g. Orange iridescent looks stunning on Green Leaves.
Violet iridescent looks lovely, softly applied on tulips.
