

# CHROMA'S JO SONJA®

## FACT SHEET

### PICKLING

Try this easy way of stain sealing wood for a limed/pickled look.

#### **YOU WILL NEED:**

- Raw wood project piece.
- Your choice of JO SONJA'S COLOR.
- NEW JO SONJA'S WHITE GESSO.
- JO SONJA'S Clear Glazing Medium.
- Hair Dryer.
- JO SONJA'S Varnish, if desired.

Mix desired color into Clear Glazing Medium : 1 part color to 3 parts Clear Glazing Medium.

Apply over a raw wood piece in small sections then wipe off excess. If darker color is desired, repeat the process until the correct color is achieved.

**DRY WITH A HAIR DRYER.**

Mix a small amount of JO SONJA WHITE GESSO into about 3 parts Clear Glazing Medium.

Apply over the stained wood; wipe back slightly then **DRY THOROUGHLY.**

This step works well if there are any textures or grooves on the piece - the **WHITE GESSO** accumulates near the textures and gives the limed/pickled look.

Once thoroughly dry, decorate or varnish as desired.

**TIP:** JO SONJA'S FRENCH BLUE plus Clear Glazing Medium gives a lovely Scandinavian woodstain.
