- Fast drying water-based acrylic paint
- Dries to a brilliant water resistant silky finish
- 20 vibrant intermixable colors
- Flexible and will not flake or become chalky
- Created especially for classroom use
- Non-toxic
- Easy soap and water clean up
- Use with mediums for block printing, screen printing, textile painting, and much more

## ACRYLIC ESSENTIALS

Acrylic Essentials offers teachers the opportunity to use a quality acrylic paint at an economical price.

### Essential Benefits

Is a water-based, non-toxic acrylic paint which can be used straight from the container

Fast-drying, convenient and affordable for classroom use

Great for acrylic painting techniques including silk-screening, block printing, textiles, etc.

Versatile and can be used with all Chromacryl Mediums

### Online Information & Projects

The Chromacryl website, [www.chromaonline.com](http://www.chromaonline.com) is designed to help nurture creativity and provides product and color information.

Available in  
200ml tubes, pints & gallons

### Enhance Qualities

Provides students between the ages of 10-15 a complete acrylic paint experience with the consistency and handling of an artists' quality paint.

### Paint Spills and Cleaning Up

Always wear protective clothing in the art classroom.

When accidents do happen, wash paint spills out of clothing immediately.

Dried paint can be removed from brushes or clothing by soaking in cold water and an alkaline detergent.

### Chromacryl Acrylic Essentials or Chromacryl Students Acrylic?

The consistency of Chromacryl Acrylic Essentials is similar to that of Chromacryl (our premium Students Acrylic) as it is made from the same binder. Students will have the advantages of using Chromacryl Students Acrylic for advanced painting techniques. However, Chromacryl Acrylic Essentials is more affordable due to the amount of pigments used and more convenient clean up.
