

Chromacryl® STUDENTS' ACRYLIC

Chromacryl Students' Acrylic

A fast drying, waterbased acrylic paint that offers limitless possibilities and applications in the art classroom, around the home, or even at the office. Chromacryl's new thicker formula allows students to develop varied and sophisticated adult painting techniques because it has the body and consistency of an artists' acrylic. Chromacryl is non-toxic, has a superb paint coverage, a high percentage of non-lightfast pigment and good water solubility.

Chromacryl comes in 30 vibrant colours and is available in 75ml tubes and 250ml jars, plus selected colours in 1 and 2 Litre bottles.

Chromacryl® STUDENTS' ACRYLIC

Chromacryl Mediums

Makes painting with Chromacryl even more versatile for students and hobby artists. They are used with acrylic paint to manipulate the consistency and properties of paint for an infinite variety of applications and techniques, whether it be screen printing, papier-mâché, textile painting or glass painting. Chromacryl mediums are an essential compliment to your painting process.

Impasto Gel Medium

Use Impasto Gel to build thick structure and texture (impasto). It can be used for thick glazes and is an excellent adhesive for mixed media, especially heavy objects in collage work. Ideal for 3D construction. Impasto Gel is milky when wet but dries clear and remains flexible.

Waterbased Finishing Varnish (Gloss)

A clear, durable, gloss varnish that forms a tough non-tacky surface to enhance and protect paintings. May also be used to varnish murals. Ideal for all artworks and surfaces where a hard heat resistant varnish is required.

500ml Bottle	CC73630

Binder Medium

An excellent primer used to seal and prepare all painting surfaces for better adhesion. Ideal for glazing techniques and is also an excellent adhesive for collage, paper pulp and papier-mâché applications. Dries to a clear finish.

Painting Medium/Varnish

The most versatile Chromacryl medium giving good colour saturation, ideal for enriching and protecting finished artworks. Seals paper surfaces so that when acrylic paint is applied, the paint retains its richness. Rejuvenates colour when applied over dried acrylic paint.

Chromacryl® STUDENTS' ACRYLIC

Textile Medium

Simply add Textile Medium to create a fine fabric printing or painting ink that once "cured" by heat becomes permanent. Allows free-hand painting and block or screen printing on fabrics with wash fast durability.

Retarder

Has been designed to stop paint from drying quickly. Adding about 10% retarder medium to colour by volume will slow the drying time considerably. This product is also great for screen printing and blending colours, particularly in fine detailed work.

Waterproof Drawing Ink

A general purpose black drawing ink ideal for brush or pen work. Black Ink may be reduced with water as desired. Fine pens require Black Ink to be diluted with an equal quantity of water.

Clear Gel Medium

Great as a paint extender and for transparent glazing techniques. Ideal for producing monotype - works as a release agent when applied to the printing surface prior to paint application. It can also be used as a reduction paste in silkscreen.

Texture Paste

An opaque modelling compound ideal for multiple texturing methods. Can be mixed into Chromacryl paint to create a coloured paste, and can be applied directly to a painting surface and overpainted with Chromacryl colours once dry. Also useful in collage to adhere heavy objects. Dries to a white, matte finish.

Gesso

For the preparation of most painting surfaces: canvas, cardboard, illustration board, paper, etc. Chromacryl Gesso has excellent covering power and provides a smooth, even finish with a very fine "tooth". Use for the preparation of acrylic or oil paintings.
