18 BRILLIANT COLOURS THAT KIDS LOVE

Chromatemp colour makes being creative even more enjoyable in the classroom.

Whichever way your students decide to paint, whether by using a brush, their fingers, a palette knife or even a sponge, childrens' creativity shouldn't be restricted and neither should their paint. These vibrant, traditional tempera colours add the perfect start or finish to every project.

Chromatemp paint combines strong, attractive colours with the ability to be cleaned up easily when accidents happen.

Chromatemp is formulated to provide inspiration for the budding artist.

Teachers: Please ensure that you students always wear protective clothing when painting, as some fabrics may retain stains. Refer to our website to download washing instructions for parents.
