

Chromacryl®

MEDIUMS GUIDE

TEXTILE MEDIUM

STRETCH MATERIALS

Chromacryl Textile Medium is great to use on T-shirts for printing or free-hand painting.

COTTON FABRICS

Buy calico bags for library bags so that the children can paint their own bags. These bags will encourage children to take out and protect the school's library books.

Mix Textile Medium with Chromacryl Waterproof Drawing Ink to stamp pictures onto T-shirts.

HEAT SET AND PERMANENT

Once you have heat set your artwork, it is permanently fixed to the fabric.

STAMPING

You can even stamp pictures onto fabrics with Chromacryl Textile Medium.

SCREEN PRINTING

Chromacryl Textile Medium can be used for screen printing as it gives the paint an even textured print.

APPLIQUÉ

Paint flowers, etc., onto fabric, allow to dry and cut them out. Sew your cut-out flowers onto a different textured fabric or paste onto cards to create appliquéd cards and pillows, etc.
